

diceware

a method for picking passphrases

Instructions:

1. Grab a dice
2. Throw it five times, you'll get a five digit number

14363

3. Look it up in the list, maybe write it down

14363 bully

4. Repeat steps 2-3 as much as how many words you want in your passphrase (for most cases five will do)
5. That's it!

Now you have a great strong
passphrase very easy to remember

P.S.: if you wrote down the
words, be sure to keep the note
in a safe place

11111	abacus	11241	aeration	11411	alarm	11541	ammonium
